TO ALL CRIMINAL JUSTICE ADMINISTRATORS

Enclosed herewith is the Crime in Idaho Publication, as compiled from the Uniform Crime Reporting data, by the Idaho Bureau of Criminal Identification, Department of Law Enforcement.

This report portrays the nature, volume and extent of crime in Idaho and has been made possible through the concerted diligent efforts of the many law enforcement agencies who consistently submitted this essential data. This information in turn, is provided to the Federal Bureau of Investigation for tabulation of national crime statistics and inclusion in their annual publication, Crime in the United States.

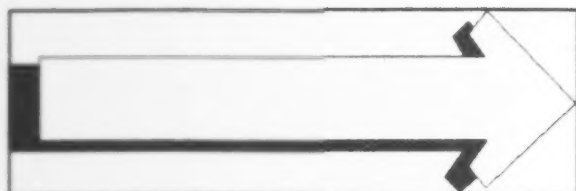

This report will assist law enforcement in management decisions and will provide valuable information for use by both private and public organizations and institutions. It is intended that it will enhance awareness among the general public that crime exists as a serious problem within our communities and requires attention from every segment of society.

Effective enforcement of criminal justice programs happens when law enforcement agencies and the public join together to meet mutually set goals. This publication is an example of information sharing which the Idaho Department of Law Enforcement is pleased to participate in, and facilitate this exchange.

Sincerely,

Mack W. Richardson, Jr.

STATE OF IDAHO

FOREWORD

This report on Crime in Idaho during the calendar year 1988 was compiled from data submitted to the Bureau of Criminal Identification, Department of Law Enforcement, by local law enforcement agencies of Idaho.

Every effort has been made to verify the accuracy and completeness of this information by the reporting agencies and the Crime Reporting staff.

This year marks the sixteenth anniversary of the Uniform Crime Reporting program for Idaho. These data establish representation of the progress of law enforcement in our state and will serve as a baseline for future work.

Without the co-operation of law enforcement agencies, this statistical information would not be available. Their participation is gratefully acknowledged.

UNIFORM CRIME REPORTING (UCR)

The Uniform Crime Reporting (UCR) program collects and reports crime offenses data for the Nation. Essential to the maintaining of uniform and consistent data is the utilization of standard definitions of the offenses used in the program.

The UCR program offenses are divided into two groups, Part 1 and Part 11 crimes. Part 1 offenses, except Manslaughter by negligence, are used to indicate the Crime Index.

The data collected on Part 1 crimes includes calls for service, complaints, and/or investigations. Arrest data is collected on both Part 1 and Part 11 offenses however, only actual arrest data is collected on Part 11 crimes, not calls for service, complaints, and/or investigations.

The Crime Index is used to indicate fluctuations in criminal activities, which in turn will assist Law Enforcement Managers in identifying law enforcement problems.

1. Criminal Homicide:

ASSAULTS ON LAW ENFORCEMENT OFFICERS

The killing or assault of law enforcement officers is an increasingly serious problem faced by law enforcement administrators nationwide, and it should be of the gravest concern to the public at large. Such acts directly affect the functioning of proper law enforcement operation and thus reduce the ability of our law enforcement agencies to combat crime and maintain law and order. Today, the ambitious young man who considers a career in law enforcement must also consider the risk of being killed or assaulted by a member of the society that he is sworn to protect.

In 1988, there were 376 assaults on law enforcement officers in Idaho, as compared to 252 in 1987, which is a Forty nine (49) percent increase. While every assault did not result in personal injury to the officer involved, many of them did result in physical harm to the officer, with loss of work time.

During 1988, Twenty Three (23) percent of all assaults resulted in injury to the officer, as compared to Twenty six (26) percent in 1987. These 376 officers assaulted amounted to Fourteen point one (14.1) percent of all sworn county and city law enforcement officers.
